Discipline Highlights

FL state standards include more granular statements that ask students to analyze the contribution of specific historical figures or events. These can serve as illustrative examples embedded into core ideas and historical processes that are addressed by the Pre-AP EKs. For example, students might analyze the examples listed in SS.912.W.2.12 of major Christian actions and processes taken during the Post-Classical period while covering relevant Pre-AP EKs.

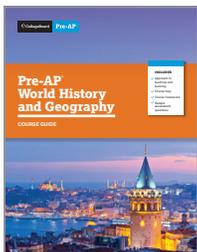

Pre-AP has an intentionally narrow focus on a prioritized set of concepts. For example, while the FL Next Generation Sunshine State Standards for World History and Geography include standards covering medieval Japan and leaders of the Reformation era, these topics are considered outside of the stated purview of the Pre-AP framework. The framework, however, provides a foundation on which such topics can be taught.

Pre-AP infuses skills and practices within the learning objectives. As a result, standards such as SS.912.W.1.4 and SS.912.G.1.2 are not explicitly covered in the learning objectives. However, the course framework provides frequent opportunities for the development and practice of these skills.
